

# Processing Digital Camera Images

## SS 2011

- Present **exact** roadmap for your project
  - max! 5 minute presentation per team
- Contents
  - quickly introduce your project (title, motivation)
  - development environment (C++/C#/Matlab/Java)
  - libs already available
  - algorithms you need to implement
  - roadmap itself
    - weekly planned milestones until deadline (see course webpage)
    - stick to your roadmap (going faster is ok)
